

# CSR Policy.

## Cadence Electrical Engineers Pvt. Ltd.

Corporate social responsibility is Cadence Electrical's sense of obligation towards social and physical environments in which we operate. We embrace responsibility and reassure a positive impact through our company' activities connecting to the environment, communities, consumers, employees and the stakeholders.

The emphasis is always on all round growth be it the functioning facility or a project in its initial growth stage.

We seek to have an even greater impact through our CSR initiatives that integrate social values into operational and business strategies.

We hold ourselves accountable for our actions and ensure initiatives to support Education, Skilling, Employment, Empowerment, including Preserving Ancient Civilization, Culture & supporting conservation of Heritage and all other basic services.

Our CSR policy encircles initiatives to conserve, sustain and renew the environment. Our concept of empowerment is to engage beneficiaries in order to make them understand their own potentials , the power they themselves have within to influence and change their own lives.

The scale and nature of the benefits quantifies people to act out of their own persuasion, the company playing the stimulant evoking the positivity, upholding a better future for everyone.
